

POLICE MATTERS.

STRONG PRESSURE FOR SALOON LICENSES.

Sister Watson Is Voted on the Force Against the Chief's Wishes—Able Legal Talent Before the Board—A Dull Meeting.

The regular weekly meeting of the Board of Police Commissioners was held yesterday afternoon in the Mayor's office. There was a very marked falling off in the attendance, but still there were enough to make it interesting, and among the number were the usual saloon men after licenses, with their attorneys, and the chronic applicants for positions on the force. Both Mayor Workman and President Humphreys were promptly on hand at 2 o'clock, but Chief Cuddy was somewhat dilatory about putting in an appearance. He finally came in, however, and the board at once proceeded to go into executive session in the Mayor's private office with Mr. Chandler. They remained closeted for some minutes, when they came out into the principal office, and the regular business was taken up by Mr. Humphreys and the Mayor, the Chief asking to be excused, as he had been subpoenaed as a witness in the Lucas trial, in Judge Cheney's court.

Chief Cuddy stated, before he left, that he would vote against Mrs. Watson as police matron, after which the minutes of the previous meeting were read and approved. Clerk Moffatt stated that of applications received since July 11th two had been granted, and asked that they be formally approved. In the matter of the saloon license of Herman Roman, at 10 West First street, the Mayor stated that a remonstrance had been received against granting the license, and a plat was submitted, showing that the saloon had an entrance into a courtyard in the Natick House. A representative of the proprietor of the Natick House was also on hand and made an argument, saying that the saloon in question would practically amount to the destruction of the Natick House business.

Senator R. P. del Valle appeared for Roman, and said that the men who were interested in this saloon were responsible business men, and that they proposed to close absolutely the back entrances of the place, and to have no connection whatever with the hotel; they proposed to be perfectly independent. Mr. Howell, proprietor of the Natick House, also appeared before the board, and stated that he would object to any saloon on account of the noise, which disturbed his guests. After some further talk, action was postponed until the Chief could see the Mayor on the question. Mr. Humphreys stated that the Chief had particularly investigated it. The Mayor said that he thought there were enough saloons in the city, and he preferred to have the saloon seek other quarters.

Thomas P. Brown appeared as counsel for A. J. Koch, who wants a saloon at No. 31 North Main street. Mr. Brown stated that the application had been made some weeks ago, but had been misplaced, and he therefore thought that the order of the Council should not affect him. Mr. Koch, he said, had already expended considerable money on the place, which he did not think he should lose. Mr. Brown made an eloquent plea for the saloon, saying that it was badly needed, as a man had to walk almost a block, and even had to cross the street, to get a drink. He thought a saloon there would fill a long-felt want. He not only spoke for the saloon-keeper, but also for himself.

After some further discussion, the matter was postponed until the Chief could investigate Koch's character.

The following new applications were also read: Taggart & Dabney, 130 West First street; J. G. Mallin, 318 South Main street; Toal & Proutz, 122 Reguena street; H. J. Smith, 50 North Main street.

The license of the saloon at 29 Los Angeles street, formerly Mrs. Dupuy's place, was ordered revoked.

The clerk was also instructed to hold back the license of Champin, at 21 and 23 Los Angeles street, to give the Chief a chance to investigate the place.

On motion of Mr. Humphreys the Chief was instructed to look into places of a questionable character, to the end that their licenses may be revoked, he to report at the next meeting.

An application was received from N. B. Appel, asking pay for 23 days' lost time on account of sickness. Denied, as the board has no authority to pay for lost time, except for injuries received in making an arrest, in which case half pay is authorized by the Council.

A similar application was received from Officer Daniel Walsh for 24 days' pay on the same grounds. Referred to the police surgeon.

Ex-Officer W. B. Palmer also put in an application for eleven days' pay, for time lost by injuries received in making an arrest. Referred to the police surgeon.

A protest was received from property owners in the block bounded by Buena Vista, Walter, Caselar and Virgin streets, against granting licenses to saloons on that block. Filed for future reference.

In the matter of the Missing Link saloon, where girls are employed, and who were ordered to discontinue the girls or have their licenses revoked, Chief Cuddy (who had returned) moved that a license be given for another month, on condition that they keep an orderly place and that girls be discharged, believing that a saloon is not the proper place for the employment of women.

Chief Cuddy moved that it be granted, which motion prevailed.

The case of Herman Roman was again taken up, and, on motion of Chief Cuddy, his application for a license was denied.

The application of Smith, 50 North Main street (change), was granted.

The application of Taggart & Dabney was also granted, it being a change of proprietorship.

The applications of J. G. Mallin and Toal & Proutz, being new saloons, action was postponed until the opinion of the City Attorney was submitted.

On motion of Chief Cuddy, the saloon license for 59 North Los Angeles street was ordered revoked.

Chief Cuddy also said that he would also like to close up several places on Alameda and Los Angeles streets, and that he would arrest all places running today without a license.

The new proprietors of the Fatherland saloon on Los Angeles street, Heathcote & Nease, appeared before the board, and on motion of Chief Cuddy they were granted a license.

ceived, protesting against the action of merchants in blocking the sidewalks by putting their goods in front of places. The matter was referred to the Chief of Police, to see that they keep in bounds. The reports of the Captain and sergeants were read, and placed on file. They contained nothing of importance. The Chief reported that he had ordered a return to the six-hour system, as he thought the system would act better, the eight-hour watch not having come up to expectation. The action of the Chief was approved.

The matter of paying officers for lost time came up again, and a long informal discussion followed. Chief Cuddy favoring paying the officers, but the matter went over without action. Mr. Humphreys moved that Mrs. Watson be appointed police matron, at a salary of \$60 per month.

There was a lengthy discussion, the Chief opposing the motion, but she was finally appointed, Workman and Humphreys voting for the motion, and Cuddy against the motion.

A petition was received from the residents on Mateo, Seventh and other streets, asking that Charles H. Trinkner be appointed a special officer without pay, and he was ordered sworn in.

The usual bills were presented and ordered paid.

On motion, it was recommended to the Council that \$100 be placed in the Chief's hands for incidental expenses, to be drawn against until it is exhausted, when another \$100 should be appropriated.

RAILROADINGS.

A Sunset Excursion—Fast Train to Colton.

Business is duller in railroad circles than it has been for some time past. There is a good deal of travel going on in a local way, and the companies are preparing for a big business this fall and winter. Freight business is beginning to pick up about the Southern Pacific depots. The Santa Fe depot is looking like its old self once more. The grounds are being improved, and the buildings are more substantial than the ones that were burned a few months ago.

The Southern Pacific Company has decided to put on a fast train to Colton, as the motor road from Riverside to Colton is now open. The time between Los Angeles and Colton will be made in one hour and 25 minutes, and stoppages will be made at several important points without interfering with other business. It will take but 40 minutes to reach Pomona. This will be a big improvement on the old time, and will give a number of business men the chance to make their homes in the country.

A sunset excursion arrived over the Southern Pacific night before last. Following are the names of the party:

San Francisco—L. McLean and wife, Providence, R. I.; C. A. Whitbeck, Ennis, Tex.; Mrs. M. Curry, Miss R. M. Wilson, New Hartford, Ct.; Mrs. F. Brewer, F. L. Merrill and wife, C. E. Merrill, A. Hatch, W. F. Greene and wife, W. Curtis and wife, Mrs. Susan Moore, W. H. Dodds, Boston.

For San Bernardino—Lewis P. Cowrie and family, New Orleans.

For San Diego—W. Clark and wife, Philadelphia.

For Carpinteria—C. F. Blackiston, England.

For Santa Barbara—John N. Rawnsley and family, England.

For Los Angeles—C. A. Hood and family, Boston; George Bush, Mrs. Hartnett, Boston; M. W. Rosenblatt, New Orleans, La.

NOTES.

The north-bound overland on the Southern Pacific was 13 hours late yesterday. The delay was caused by a washout near Yuma.

Yesterday W. B. Biddle, freight and passenger agent of the Atlantic and Pacific Railroad Company, was in the city. His headquarters are at Albuquerque, N. M.

H. B. Wilkins, general freight and passenger agent of the California Central and California Southern is in the city.

Col. Williamson Dunn of the Santa Fe system will remain in Los Angeles, and will have his old office in the Phillips block.

Assistant Superintendent J. A. Muir of the Los Angeles division of the Southern Pacific returned home yesterday from Santa Barbara, where he has been attending a damage suit against his company.

Freight business at the Southern Pacific freight depot was better during July of this year than during the same month last year.

WOLF-PETERSON.

The Precious Trio from San Juan Got an Extension.

The Wolf-Peterson murder case, was set for trial in Judge Cheney's court at 10 o'clock yesterday morning. At the appointed time the Lucas case was still on, and a postponement was ordered until 3 p.m. At the latter hour, the prisoners, Wolf and his wife and Peterson were in court, and some 15 witnesses, who had been subpoenaed in the case.

Attorney Stephens of defense submitted the following certificate.

LOS ANGELES, Aug. 1, 1888. I certify that, in consequence of threatened paralysis, Col. G. W. Wells is unable to attend to any business of a character requiring mental effort, and that I have, as his physician, required him to remain in perfect quiet at his home for at least a few days. K. D. Wise, M.D.

The Court ordered that, inasmuch as Col. Wells is the leading counsel for the defense and has had principal charge of the case, it appears that he would not be able to attend the trial at the present time without endangering his life, a continuance be granted until September 18th, at 10 a.m.

Chief Attorney de la Cruz interpreted the objection to the continuance, in view of Col. Wells' prostration.

It will be remembered that Alfred Wolf is held for the murder of a fisherman named Wilson, San Juan Capistrano, and that Wolf and the man Peterson, who bears the reputation of being Mrs. Wolf's paramour, are held as accessories. The prisoners presented a rather striking appearance.

Mrs. Wolf is an obese, coarse-grained woman, with the pinkest of pink cheeks and an air as utterly unabashed as though she were in dress parade in the park. Wolf, an undersized, shrewd-looking man, carried the baby, which is apparently 1 1/2 or 2 years old. Peterson is somewhat larger than Wolf, and he betokens more uneasiness than either of the other prisoners.

ICE AND COLD STORAGE.

THE HENDRICK COMPANY'S BIG ESTABLISHMENT.

Facilities for Furnishing Ice in Unlimited Quantities and at Reasonable Prices—Ample Room for the Storage of Meats, Vegetables and Fruits.

The immense plant of the Hendrick Ice and Cold Storage Company is at last completed, and the largest manufacturing establishment in Southern California, and the largest of its kind in the world, is now in full running order in Los Angeles. Some months ago the gentlemen composing this company were attracted by the numerous advantages of this city as a trade center, and determined upon locating here an institution which would supply the traditional "long-felt want," and at the same time make money for themselves. With business men to think is to act, and but little time was lost in preliminary work. The company was organized, the site secured, and now, after some months of the most arduous and necessary buildings have been erected, the machinery put in, and the company is ready to begin business. A Times reporter was yesterday shown through the works by C. D. Simpson, one of the board of directors of the company. The establishment is without doubt the most complete on the coast.

THE BUILDINGS. Of the company are located a short distance south of the Santa Fe depot grounds, on the line of the Los Angeles and Port Ballona Railroad, at the foot of Seventh street, and are all of the most substantial character. The buildings consist of the main structure, a large, three-story brick, 130x130 feet, in which are the generating and cold-storage departments, and six smokehouses, each 15 x75 feet. Two 50-horse power boilers are used for steam purposes, in running the machinery, and the ice bath is 30x7 feet, with a capacity for 300 tons of ice, which can be frozen in three days, making the daily product something over 60 tons. In 24 hours, the refrigerators can have a combined capacity of about 200 carloads of produce in cold storage at once, and the smoke houses will hold about 150 tons of meat, hams and bacon, which the company cures here, thus avoiding the loss by shrinkage caused by being brought across the desert. This firm is the sole manufacturer of the celebrated "Lily" hams and bacon, which is popular in this market. The cold-storage department is one of the best features of the whole concern, as the facilities afforded for taking care of produce are such that farmers and fruit raisers can preserve their products, and thus take advantage of the market by not being compelled to sell when the markets are glutted, as the service of this service is so good that it is almost nominal. In the ice department all the water used is first boiled and filtered, clearing it of all impurities, thus making the ice the best and purest of natural article. The entire plant is in fact simply perfect, and has received the endorsement of J. W. Arnold, of the great packing house of Armour & Co. of Chicago and Kansas City, who says that it is by far the best that he has ever seen.

THE COMPANY is one of the strongest in the State, the combined capital stock being nearly a quarter of a million dollars, all of which is fully paid up, and there is ample means behind that. It is composed of E. E. Hendrick, president, P. R. Heyen, treasurer, and Mr. Dods, general manager. The Board of Directors is composed of C. D. Simpson, of the firm of Simpson & Watkins, anthracite coal miners and shippers, of Scranton, Pa.; A. Nesbitt, president of the Second National Bank of Wilkesbarre, Pa.; A. A. Bryden, president of the Miners' Savings Bank of Pittston, Pa.; Thomas Ford, vice-president of the First National Bank of Pittston, Pa.; E. E. Hendrick, president of the company; M. Dods, general manager of the company and capitalist of this city, and several other eastern capitalists.

Mr. Hendrick, the president of the company, is the inventor of the method of refrigeration used in these works, which is claimed to be better and more economical than any other now in use. A newly-invented "super heater" connects the steam generator by a conveyer pipe with the absorption machine and gas generator, thus saving a great amount of steam. By this process one ton of coal will make 25 tons of ice. Mr. Hendrick thoroughly understands machinery, and is prominently identified with the Standard Oil Company, the immense product of which is manufactured by his processes, and it was while investigating this refining process that he discovered the present process of refrigeration, which he has worked up to such perfection, and which is used only on his machines, which, by their economy and good work, are destined to revolutionize the ice industry.

A GREAT ENTERPRISE. The Hendrick Company is an enterprise which should receive the hearty support of the public. It has broken up the ice monopoly and put the price where all can enjoy the comfort and convenience of cheap ice, 1 cent a pound being the price charged. George M. Stowe, of Riverside, has been engaged as superintendent of the cold storage department, and C. E. Tibbets, who has had 13 years' experience in Boston, will manage the ice business. The present capacity of the plant is sufficient to enable them to supply all Southern California with ice, from Santa Barbara on the north to San Diego on the south, and extending as far east as San Bernardino. At points and intervening towns depots will be established for the distribution of their product.

THE BELL CASE.

The "Majah" Triumphantly Acquitted of Libel.

The criminal libel case against Horace Bell, in which he was charged with libeling B. A. Stephens, was brought to a conclusion in Judge O'Melveny's court yesterday.

Stephens was the last witness on the stand. He was questioned closely about his trip to Indiana when he looked up Bell's record.

Did you consult any one regarding going to Indiana? asked Mr. White. Witness: Yes, with Mr. Cuddy. "Did you consult with Col. Wells?" Witness: I think not. He is ill before I left.

Where did you obtain the money for your expenses?" "From various sources; had worked steadily on the Express for two years," George M. Stowe said.

"I was out about \$165," The attitude assumed by the defense was to admit the publication complained of, but setting up the claim in justification that the matter was true. May Bell succeeded in making a showing that there was a good deal of feeling against Stephens in Indiana while he was looking up the record, and that the slight advantage gained by the case was argued vigorously on both sides, and was given to the jury at 11:55. At 12:30 they returned with a verdict of acquittal.

DETECTIVE LUCAS.

HIS TRIAL STILL SWINGING ALONG.

Col. G. Wiley Wells threatened with Another Attack of Paralysis and Obligated to Retire—Detective Metzler Impeached by Detective Finnegas.

A sensational episode in the Lucas trial occurred yesterday morning when the case was called in Judge Cheney's court. Col. G. Wiley Wells, leading counsel for the defense, addressed the Court with much difficulty, stating that he was threatened with another attack of paralysis, and, on the advice of his physician, he would be obliged to retire. He was excused, and as he withdrew from the courtroom, it was evident that he was a very sick man, his left foot scraping the floor in a semi-paralyzed condition.

After the Court had ruled on a question of admitting depositions, the hearing of testimony was taken up.

H. B. Adams testified that a young man came to his place April 6th and ordered a police badge, which he paid for and took away April 7th. No name was given, the person saying he was a detective. Lucas had come to his place after Elton's arrest, but could not remember what he had said about the badge.

Col. Henry Finnegas of San Francisco testified that he had been chief of the secret service division of the United States Treasury Department for several years, but was not now. He knew Theodore C. Metzler, detective in San Francisco, for 12 or 14 years. He knew his reputation during that time, and it was bad, and he would not believe him under oath. His feelings toward Metzler were not friendly. The latter had tried to get a position and witness, but did not succeed. He would not go out of his way, however, to do Metzler harm, and was a most unwilling witness, coming only upon the process of this court. He would like to return immediately, but the prosecution said it wanted him to remain awhile.

Officer A. W. Marsh said he was on the detective force of this city in April, 1888, and saw Lucas at Chief Cuddy's office, and heard him say Elton had given him some property to keep for him. Gave descriptions of some articles, and asked witness if any such articles had been reported lost or stolen.

Afterward saw Lucas at his office when a gold penholder was shown him as having come from Elton. When the latter was arrested, told him and his wife, and he and his wife, Elton had given him that morning, and asked if there was any record at the police office of such property. Was told there was no such record. He told him of Elton's record, that he had just gotten out of jail, and said he had returned and wanted to be a good boy. Elton had said he brought the revolver from San Francisco, and came by it honestly.

Also told witness that he did not know whether to believe Elton, and that it would do no harm to watch him. Had looked for Elton on April 11th, or 12th, to arrest him, and asked Lucas to assist him, as he was wanted for burglary. Lucas told him he would. Had met Elton next day and arrested him. Witness did not hear the conversation between Lucas and Elton in the latter's cell, but had received valuable information from Lucas as to the result of that conversation. The prosecution objected to having it repeated.

Mr. Stephens said he wanted to show there had been a conspiracy between Elton and Detective Harris and Marsh against the defendant. After some time spent in discussing the admissibility of such evidence, the matter was passed for the time being.

On cross-examination the question as to why he left the detective force was objected to, and the objection sustained. Had worked with Lucas in October last, and also in December, and had a desk in his office. In the latter case, he worked for the Chief of Police. Objection sustained as to the relations between Lucas and the Chief in that case.

Afternoon Session.

A. W. Marsh was again on the stand at the opening of the afternoon session.

C. C. Stephens, counsel for defense, offered to impeach Elton's testimony by the witness Marsh.

Judge Cheney ruled it out for the reason that Elton's attention was not called to the time and place of the proposed conversation. The witness was withdrawn.

Henry J. Hillier testified: Do business at 18 Commercial street. Elton had a badge made there. Remember making an eight-pointed star of \$2.50. A witness identified badge. Don't know who it was made for. The man was in a hurry for a badge. We loaned him a special badge till we made this one. Don't think I would recognize the man.

Thomas F. Donahue testified: Was on police detective force in April, 1888. Was in office on 13th of April. Had telephone communication with Lucas at that time. Recognized his voice on that occasion. He told me Elton was on Main street, and to come down and catch him, and I went down there, but did not see Lucas or Elton. Went down to the postoffice, and met Mr. Wimmer. He pointed out Elton, and I arrested him in front of the Grand Central Hotel. He was talking with Dunbar. Officers Marsh and Lynch came along in an opposite direction. Marsh and myself took Elton to jail.

H. C. Wolf testified: Am a druggist on the corner of Main and Laurel streets. Lucas came into my store, and telephoned to certain parties, telling them some jewelry had been stolen. It was in the evening, between 8 and 9 o'clock, about six weeks before Mr. Lucas was arrested.

E. C. Bush testified: I know William Elton; was in business at St. Elmo Hotel; saw Elton there in April. I was there as night clerk and bellboy. Had conversation about a paste diamond pin with Elton. Marsh came in and woke me up in the day time, and said Elton was arrested. Elton had said it was a diamond pin, and showed me a red beaded silk purse and \$20. This was the evening before he was arrested. His reputation for truth, honesty and integrity is bad. He was a star, and said he was working for Harris and the Salvation Army, and asked me not to give him away. He said he got the purse up north. [Witness recognized the purse shown him.] Cross-examined: He showed the pin outside the hotel and the purse inside. Was not asked about the purse at the preliminary examination. Worked for Lucas about a month, a year ago, in San Francisco. Have known Elton since about April, 1887. Worked for Lucas one day in Los Angeles. Have slept in Lucas' office since he moved to his new office, and work in the laundry at 730 South Fort street. Elton and I took a drink together at the St. Elmo at the time we had the conversation.

T. J. Cuddy testified: Was Chief of Police in April, 1888. Knew Mr. Lucas. Had conversation with Mr. Lucas in regard to some alleged stolen property. [Witness identified the property.] The interview occurred in my office. Think the conversation was subsequent to Elton's arrest. He said he got them from Elton. [Counsel said he testified in the preliminary examination.] Mr. Cuddy said his testimony then taken is correct. He has no such business of this kind, he does not recollect it. Mr. Lucas had spoken to him about the articles, but he could find no description of them on his books.

William Elton was again put on the stand. He testified: Did not have a conversation with Mr. Marsh in the private office of the Chief of Police. [Witness denied a number of questions read from the record of the preliminary examination.] Met Mr. Wimmer. He said he had a safe to crack. First told Caines about the burglar. I had committed.

J. W. Holcomb: Am an attorney, visited Elton in jail. The prosecution objected to his disclosing any knowledge obtained from Elton as a client.

The defense, at the request of the Court, put a question in writing and submitted it to the Court. The Court ruled it out.

Witness identified an order on Mr. Lucas for a pistol; also one on the Chief of Police. Mrs. Mary Whittier testified: Know Elton; he was in a lodging-house where I roomed. He had a beaded silk purse. [Witness identified the purse.] He said it was a gift from his mother; said he was a newspaper reporter; it was the morning of

the arrest; he had some money in the purse; there was some gold and silver.

Cross-examined: There was a young lady present who is now in San Francisco.

Q: Did Elton make you a present?

A: I don't know as that is any of your business. [Laughter.]

Witness: The lodging-house is at 216 West First street—live on the interest of my money.

J. W. Douglas testified: Last night I was reported wrongly in the Express. The Court: Never mind what was in the Express; tell the truth here.

Mr. Stephens: You would go crazy if you worry over all the mistakes in the papers. [Laughter.]

Witness [identifying a paper]: That is a receipt for \$401 paid Mr. Emil Harris for detective work done for me outside the city.

A. W. Marsh, recalled: Had a conversation with Elton on the day of his arrest. He objected to Donahue's presence and he retired. Elton said he was a born thief. He offered to show me certain houses he had burglarized if I would set him free and help him down a prominent man in this community.

He proved Elton to be a general liar. T. F. Donahue corroborated Marsh's testimony in regard to the conversation in the office.

O. C. Hawkins: Am Constable in Marin county; know William Elton, alias George Moore; saw him there the 23d of last February; found a paper on him. [Witness identified the paper.] He swore his name was George Moore. His reputation for truth, honesty and integrity is bad. He was in the County Jail 40 days.

George W. Moore: Reside in San Mateo; have been there since 1880; knew Lucas since 1884. [Witness here identified his certificate of membership in the Pacific Coast Detective Bureau.] I kept the certificate two years, then surrendered it when I gave up my bond. [This is the same paper Mr. Hawkins testified to have taken from Elton at San Rafael. Elton had Moore's certificate.]

O. C. Hawkins, recalled: I sent that certificate to Mr. Lucas. I had it in my possession from the time I took it from Elton till I sent it to Lucas. Adjourned.

A PICTFUL CASE.

How Troubles Have Multiplied for an Ex-German Couple.

About five months ago an ex-German couple came here from the East, the woman believing that the climate would improve her lungs, which are weak. Two days after their arrival the husband was knocked down by a runaway horse from Covarrubias' stable and crippled for life. A man from the stable called on them once, and promised to do something for them, but never showed himself again. Entirely destitute of means, unable to speak a word of English, and knowing not a soul in Los Angeles, it is hard to say how they have managed to get along.

The man and woman together until now. The old lady has taken washing and worked almost night and day, which, with a little assistance from the German Society, has kept them from absolute starvation, although she has almost worked herself into her grave. To add to their troubles, the agent of the owner of the house they live in, influenced by parties who want their rooms, has raised the rent of the two miserable apartments they occupy 50 per cent, and threatened to turn them out on the street in three days if a month's rent at the increased rate be not at once paid in advance. The case is worthy the attention of charitable disposed persons. The address of the couple is 87 Hanning street.

A WOMAN'S WAY.

A Startling Business Proposition.

A little over a week ago Mrs. Fowler, of 327 Ellis street, San Francisco, stopped in at a leading city druggist's to ask what effect Joy's Vegetable Sarsaparilla, about which she had heard so much recently, would have in case of dyspepsia and sick headache. She was the case, and the druggist would relieve both. She was, however, so incredulous that finally the druggist gave her a bottle, not to be paid for unless it proved a cure. Her condition so startlingly practical has seldom, if ever before, been made. The following is received in the convincing conclusion, and tells the story.

San Francisco, February 8, 1888. DEAR SIR: I write to admit that, notwithstanding my misgivings, Joy's Vegetable Sarsaparilla did that you promised me. I had not a retort of either headache or dyspepsia since I began to use it. I have not been able to get on my feet since I began to use it. TO THE PUBLIC.

The Bituminous Lime Rock Paving and Improvement Company.

Take this opportunity of informing the citizens and property-owners of this city that the pavement laid on Main street, between First and Third streets, is not bituminous lime rock, but is an artificial mixture, and not laid by our company. We make this announcement for the purpose of dissuading the minds of those who entertain the belief that this pavement was laid by this company, and are disposed to criticize our material as being soft and not suitable for the streets of this city.

The bituminous lime rock pavement here was laid by this company, and extends on Main street from the south line of Third to Ninth street, and on Spring street from Temple to Ninth street. Bituminous lime rock does not become soft and mushy under the heat of the sun, but always remains firm and elastic. We have always laid on the streets of this city about 500,000 square feet of this pavement, to which we take pleasure in inviting inspection. Very respectfully yours, Bituminous Lime Rock Paving and Improvement Company.

J. A. FAIRCHILD, General Manager.

In view of the depression in the real estate market, we have decided to give special terms to those who wish to buy our material for business. We want houses of all descriptions to rent. Our demand far exceeds our supply. Three days' rent will pay our charges in full, and we can probably rent your house three days sooner than you can. It will cost you nothing to see our material for a month, and possibly a year. If we rent it a week sooner than you could, we will give you double what our charges will be. Therefore, put your property in our hands immediately and save money. We keep a carriage to show you our material, and we will take you to see it. We will also advertise your property free. Try us. THE monarchical countries of Europe are gradually approaching more nearly to democratic forms of government. The Italian Chamber of Deputies has just passed a bill giving 2,000,000 artisans the right to vote.

The election of Bryce as chairman of the Democratic National Campaign Committee, according to a Washington dispatch, has left in its wake much bitterness and hard feeling. His selection was due to his money-bags and an edict from the White House.

HON. WILLIAM H. BEATTY of Sacramento, nominated by the Republican State Convention for Chief Justice of the Supreme Court, is a well-known jurist of acknowledged legal capacity, and Judge J. D. Works of San Diego, nominated for Associate Justice, is a representative of the Southern part of the State who has a great many warm friends in this section.

GEN. VANDEVER'S unanimous re-nomination for Congress by the Republican State Convention was a deserved recognition of his ability, industry and zeal. The General has been badly handicapped during his past term by the contest for his seat. He will be elected more easily this time and will render greater service. Gen. Vandever is no novice in Congress. He served once before the war, passed through the war with great distinction and served from Iowa, subsequently to the war, afterwards removing to California. There won't be much left of little Reel B. Terry of Fresno when the votes are counted next November.

RECENT reductions in the cost of lumber, and a greater available amount of labor, due to the cessation of active work on many mushroom "cities," will give a further impulse to the already wonderfully extensive building operations in Los Angeles. It is probable that we have about sufficient stores and offices for our immediate needs. What is especially wanted is a large number of small cottages, of from four to seven rooms, renting at from \$20 to \$30 a month. It is no exaggeration to say that while the supply of offices and stores is at present fully equal to the demand, at least a hundred such cottages could be rented within 48 hours, and yet this is the dull season. How much greater will be the demand when the winter visitors begin to arrive! Let some of the owners of town lots build cottages and draw much interest on their money.

A Missouri Fellicious Idiot-Liar Loose.

The other day we made reference to an exceptionally vicious thrust against Los Angeles, written from here to the Kansas City Times by some anonymous traveler, appropriately signing himself "A Fool from Kansas City." Among other things this escaped lunatic-whom it would be base flattery to call a fool—asserted that there is now no building "to speak of" going on in Los Angeles, except buildings that were contracted for previous to what he loftily and loosely proclaimed as "the grand smash-up." (If there has been "a grand smash-up," how could even contracted-for buildings be completed?)

In refutation of "A Fool from Kansas City," THE TIMES claimed that there is at this very time a large amount of building going on here, "as the Kansas City fool, or any other fool, ought easily to discover by an hour's walk in any direction."

In proof of which claim we now proceed to cite facts so plain that even an escaped Missouri idiot can get them through his skull, whether the brain be added or absent.

Look about a little, and the observer will see the following prominent buildings in course of erection, not to speak of a great number of lesser structures, for both business and residence purposes:

Corner First and Spring, four stories, to cost, \$80,000.

Bonbrake & Bryson building, corner Second and Spring, five stories, 225,000.

Y. M. C. A. building, four stories, 150,000.

W. C. T. U. building, four stories, 75,000.

Corner Fourth and Main, four stories, 75,000.

Los Angeles theatre, Spring street, Dr. Burbank's theater, Main street, 100,000.

Crocker building, Fort street, three stories, 50,000.

Lanfranco building, Main street near Temple, 75,000.

Reddick building, southeast corner of First and Fort, 50,000.

New Courthouse, 300,000.

New City Hall, 250,000.

Abstract building, corner Franklin and New High, 65,000.

As stated, we cannot now undertake to enumerate the fine residences going up in different parts of the city, many of which exceed in cost any that were in course of erection a year ago. Besides, let it not be forgotten that about \$300,000 is being expended in cable roads and improved street-car lines, not to mention the extensive street improvements and new sidewalks. That some men are idle who want work is true; but it is equally true, as stated in THE TIMES, that there is more money being expended in buildings in Los Angeles than ever before at any one time in her history. It is the aim of THE TIMES not to overstate or misrepresent facts; the truth is as we have stated it; and this is the very dull season of the year, too, when it is unavoidable that many mechanics should be short of work.

What we have said here applies to the city of Los Angeles (which alone was the subject of the Kansas City correspondent's screed) and not to the county, or to Southern California in general. It is not denied that in many new towns, started last year, building actually has measurably ceased, and it is perhaps well enough that it is so, for the forcing process must sooner or later come to an end, wherever practiced; but as to Los Angeles, the metropolis, she is able to deny the Kansas City man's allegation, and defy the Missouri alligator. Selah!

The Republican Platform.

The platform adopted by the Republican State Convention will stand close inspection. Like the platforms adopted this year by Republicans of other States, its language has no uncertain sound. Very naturally, in view of the importance of the subject, the greatest space is devoted to the tariff question, the well-known tenets of the Republican party upon this subject being clearly enunciated. As might have been expected, from a Pacific Coast convention, the silver question received attention, a plank imperatively demanding a bi-metallic currency being inserted. The Chinese question was also handled without gloves, the determination of the party being renewed to make such restriction as at present exists effective. Republican voters should not forget that the Democrats, in their national platform, expressed the belief that the present

treaty was all that the country needed in this direction. The Democratic policy of the solid South, in depriving the colored people living there of the right to vote, was denounced.

Thus, without unnecessary verbiage or rhodomontade, the leading issues before the country are dealt with in a straightforward and business-like manner, and the principles of the party plainly stated. In this respect, Republican utterances in the year 1888 show a marked superiority to the devious and insincere statements with which the Democratic party endeavors to cover up its false position.

AMUSEMENTS.

THE PROHIBITORY FACTIONS.

The Yarnell-Haines Wing Get Back at Brer Goulet.

For the purpose of ascertaining the latest phase of the Prohibition love-feast, a TIMES man yesterday ran up against a member of the Yarnell-Haines wing of the breves Democratic windmill, and asked him, "Have you read it?" The reply was:

"Yes, I have read what Goulet said in THE TIMES of today. I observe that he does not say the fact is that he was tried and found guilty of slandering the officers of the Grand Lodge of the Good Templars. He could not do so without being convicted of deliberate falsehood, nor could either of the others deny any of the matters stated in my former interview."

"To whom Goulet refers when he says 'they have no money,' I cannot say, but it may be said that now the three persons opposed to the party management of Goulet have contributed more money to the Prohibition party than Goulet and his friends have contributed or will contribute during the entire canvass. Perhaps it may be pleasant to the reformed men in the party to be compared to prostitutes. I take it a large majority of the men in the party are not of that class, and no man but one bound to rule or ruled would take such a course. But, aside from this, the men thus assailed, for the most part, have been and are as pure and temperate as Mr. Goulet. As to the question of drinking or not drinking, Mr. Goulet knows that if the question of leadership were fairly submitted to a vote of the party he would be elected. He does not deny that he wants to run the party. They do, however, desire that the party should be free from the ambitious and selfish management of Goulet and his little clique."

"In saying this, the man who was tried by Merrill Lodge, He was tried before the Grand Lodge of the State, and almost unanimously found guilty. It was only after this verdict was pronounced that he became convinced that he was too exalted and too virtuous to associate with the 'prostitutes' who have given numbers and strength to the party. It is all very well for Mr. Goulet to hide behind the miserable subterfuge of 'personal fights,' and say they will not be tolerated, but when he resorts to his old mode of slandering upon men who have never been guilty of perjury or any other offense known to the law, and sets himself up as the censor over the membership of the party, it is not time that he should be in the ranks, where he belongs. I don't know, of course, how the reformed men may take this gratuitous insult, but I think they would better be in a meeting where he presided, or contribute a dollar for him to expend. I expect his man Friday will fill the columns of the Evening with vile abuse. Some good people imagine that this matter will hurt the party. I don't think so. In the end it will be of great advantage to get rid of selfish, vindictive and dishonest men, who are the only ones who will hang on whatever may be the interests of the party. He is full of egotism, and is vain enough to believe the party would go to the devil without his management. He is a hypocrite, and his conduct in the Prohibition party ought to call a meeting and resent, in some form, the gratuitous insult of this arrogant and obnoxious boss."

A CONSPIRACY.

LOS ANGELES, Aug. 1.—[To the Editor of THE TIMES.] I wish to inquire if your reporter is quite sure that Mr. Goulet used the insulting language in reference to the reformed men in the Prohibition party which appeared in the published interview of yesterday. Whatsoever may be his private opinions, I can hardly believe he would be so indiscreet as to characterize them in the manner stated.

[The reporter is sure.—ED.]

THE COLUMBUS EXHIBIT.

The Board of Trade Getting Down to Business.

The Los Angeles Board of Trade, with its usual enterprise, has undertaken to have Southern California properly represented at the National Encampment of the Grand Army of the Republic and Ohio State Exposition during September and October. Ample space has been secured, and the representatives of the board are now engaged in arranging for the exhibit. The Santa Fe Railway Company will transport the exhibit free of charge, and the board is now engaged in arranging for the exhibit. The Santa Fe Railway Company will transport the exhibit free of charge, and the board is now engaged in arranging for the exhibit.

Washington Territory, Oregon, Northern California and Florida will all exhibit at Columbus, and the board is determined that Southern California shall be neglected. About \$2500 will be required to carry out the enterprise, and in a country as prosperous as this but little difficulty should be encountered in securing this sum. The beneficiaries of the exhibit are the people of the territory, and in a country as prosperous as this but little difficulty should be encountered in securing this sum.

Persons having objects of interest would confer a favor on the board by loaning them for exhibit. Everything will receive the best of care and be returned in good condition.

Manager Van Alstine will start at once on a tour through the western portion of the State in the interest of the project.

A PIONEER GONE.

Death of Hon. James Adams of Oakland.

A private telegram to friends in this city announces the death of Hon. James Adams, a prominent resident of Oakland, Mr. Adams died on the evening of the 31st ult. at Calistoga. He was a delegate from Alameda county to the Republican Convention held in San Francisco in 1872.

He was of north of Ireland extraction. He began business life as a farmer and at 13 years of age, in New York State, afterwards for many years at Philadelphia, and about 1822 removed to San Francisco, where for many years he accumulated money rapidly in hay and grain. Mr. Adams owned a fine residence at Oakland, and also, among various other things, a large estate in the splendid block on the northeast corner of Kearny and Sutter streets, San Francisco. He was a Presbyterian in religion, and an ardent and constant Republican in politics. He died aged about 57 years, a victim of complicated disorders of the stomach and liver, from which he had long been a sufferer.

The Jute Corner Preparing to Reap a Rich Harvest—Gen. Sheridan Greatly Improved—The Wife of a Murdered Man Becomes Insane, Etc.

By Telegraph to THE TIMES.

ST. LOUIS, Aug. 1.—[By the Associated Press.] A special from Weibach, Kan., says that there is much uneasiness there over the condition of affairs in Stevens county. Militia officers have been hourly expecting orders from Gen. Meyers to march, but no word has been received from him since he left.

It is now reported that Gen. Meyers, Capt. Wallace and Attorney-General Bradford are prisoners at Hutchinson. It is said that when they ordered the citizens to lay down their arms they were made prisoners, until the ringleaders in the late battle with the Woodstock citizens can be spirited away. Threats have been made against Gen. Meyers, and his friends are greatly alarmed.

THE TEA TRADE.

Northern Pacific Trying to Get a Share of It.

CHICAGO, Aug. 1.—[By the Associated Press.] The Northern Pacific is making an effort to secure a share of the tea traffic from the Pacific to the Atlantic Coast, which of late has been monopolized to a great extent by the Canadian Pacific. Yesterday the first shipment of 16 carloads arrived at Chicago, on its way to New York. The tea was received at Portland, Or., by the Northern Pacific, transferred to the Burlington and Northern at St. Paul, and on its arrival here was taken eastward over the Chicago and Atlantic, which connects with the Erie for New York. The object is to overcome the Canadian Pacific record in time of transportation from ocean to ocean.

The train made remarkably fast time over the inland route, the route, and was scheduled to run at or about 40 miles an hour from Chicago to New York. Much interest attaches to this competition, as the result is destined to have an important bearing on transcontinental traffic. It is shown that better and quicker service is given by the new route than by that of the Canadian Pacific there is no doubt that the business now held by the foreign line will be captured by the Northern Pacific and shipped eastward via Chicago.

WINNIPEG, Aug. 1.—The terms of agreement between the Northern Pacific and Manitoba Government were made public today. The Northern Pacific agrees to build this year an extension to Portage, and next year the line to Winnipeg. The Manitoba arrangements were made as to a branch line and extensions. The agreement provides for the maintenance of maximum rates from Portage to Duluth on wheat, and to maintain other classes of freight. This rate is considerably lower than the Canadian Pacific rate from Winnipeg to Port Arthur. The agreement also distinctly stipulates that the Northern Pacific shall not enter into any pooling arrangements with the Canadian Pacific.

ROBBLESLEY SPLIT.

The Two Wings of the Labor Party Unable to Agree.

CHICAGO, Aug. 1.—[By the Associated Press.] A conference of the Executive Committee of the Union and United Labor parties was held here this evening, to see if some settlement of their differences could be reached. The United Labor people proposed to divide the electors in the county, and to have the two parties support each other in the election. The proposition was refused. They then offered to withdraw their ticket from half the State, if the Union Labor party would do the same. This was also declined. The United Labor party then agreed to a withdrawal of both tickets and the nomination, in joint convention, of a new one. This was refused, and the Union Labor men demanded, as a basis of compromise, nothing less than the complete withdrawal of the United Labor party from the contest, and the support of the Union Labor party. The United Labor committee withdrew from further nominations.

Robert Crowder, the United Labor party's candidate for President, has issued the following challenge to A. J. Streeter, the candidate of the Union Labor party:

"There can be no excuse for the existence of two labor parties in this country, and as all efforts to unite the two parties have proved futile, I hereby challenge you to meet me in a friendly debate to sustain the claims of your party that you have a remedy that will cure the evils you are complaining of, and on the showing thus made to let the voters of this country judge whether your party has the true remedy for the evils that we would cure."

SAD SEQUEL.

The Widow of a Murdered Man Becomes Insane.

CHICAGO, Aug. 1.—[By the Associated Press.] A sad sequel was added today to the murder of the two base-ball players, John Phillips and "Skip" Larkins, on Sunday by August Detlauf, whom the pair attempted to deprive of a can of beer. Mrs. Phillips, who became completely prostrated when the news of her husband's death was broken to her, insisted upon attending the double funeral yesterday, although scarcely able to leave her bed. When her husband was lowered into the grave she grew wild with hysterical, declaring she would be buried with him. She has not tasted food since her husband's death, and fears are entertained that she will die of inanition, as she has positively refused all nourishment.

JUTE CORNERED.

The Combination Gets Control of the Market.

ST. LOUIS, Aug. 1.—[By the Associated Press.] It now seems that the jute combine has secured sufficient control of the output of manufactured bagging to control the market. It is claimed that Warren, Jones & Gratz are at the head of the deal, and they decline to deny or affirm the statement. Several of the largest eastern mills are in the combine, the most prominent being L. Waterbury & Co. and Nevins & Co. of Boston. The mills shut down are at St. Louis, Peru, Ind.; the Crescent Jute Company of New Orleans, W. C. Tapp & Co. of Louisville, the Hart Bagging Company of Brooklyn and some small mills in Illinois and Indiana. The Ludlow Bagging Company of Boston is the only concern of any magnitude running independently, and its output is but 5,000,000 yards, nearly all of which has already been placed at about 7 cents. The price fixed by the combine is 11½ cents, or an additional clear profit of 4½ cents per yard.

NUTMEG PROHIBITIONISTS.

They Nominate a Ticket—Divided on Woman Suffrage.

HARTFORD, Aug. 1.—The State Prohibition Convention held its first session today, Rev. E. Northrup was elected chairman. His address was said to be that he was convinced that the prohibitory amendment in Rhode Island

would never be enforced. It was of no use to attempt a reform of this kind through either of the old parties. The Prohibition party had now taken its position on solid ground and will make no compromise.

Northrup was heartily applauded. The Committee on Resolutions split on woman suffrage, and two reports were made. The majority report was amended so as to endorse the Indianapolis platform favoring woman suffrage. A plank was added demanding the abolition of the internal revenue tax on liquors by the immediate prohibition of the traffic, and the majority report was unanimously adopted.

A State ticket was then nominated as follows: Governor, Miriam Camp; Lieutenant-Governor, Nathan Babcock; Secretary of State, Theodore L. Pease; Treasurer, J. W. Keiss.

The sermon was preached by Rev. M. M. Shedy of Pittsburgh, who spoke chiefly upon the cultivation of temperance among the growing generation of this country.

After mass the convention was called to order by President Conaty, who made the opening address.

But Was Gracefully and Summarily Squelched.

General Satisfaction at the Result of the State Convention.

Other Coast Topics—No More Loper Children to Be Allowed to Land at San Francisco—Exhibition of the Band Indicted—Chinamen Torture a Countryman.

By Telegram to The Times.

SAN FRANCISCO, Aug. 1.—[By the Associated Press.] The result of the labor of the Republican State Convention of yesterday seem to meet with the general approval of Republicans. Much satisfaction is expressed at the unanimity of the convention on important points.

There is some local comment today over the following incident that happened last night: During the nominations for Supreme Judge, J. J. Gosper of Los Angeles jumped to his feet with a strong protest. He said it was customary in all conventions to allow seconding speeches, and he therefore desired the attention of the convention for two minutes. He said he represented modest Los Angeles (laughter), a county which wanted nothing and expected nothing. All it desired, however, was to see Judge Greene nominated for the Chief Justiceship. The people of Los Angeles, he said, were in favor of Judge Greene, whom they regarded as a noble man. He had been requested to second the nomination, and he did it with genuine pleasure, convinced that his nomination would be of good service to California.

Judge Fitzgerald spoke briefly in favor of Judge Beatty, and said that Gov. Gosper spoke only for himself, and the roll-call would show it.

After further debate, the roll was called, resulting in Beatty's nomination by a large majority.

THAT LEPER CHILD.

The Quarantine Officer Sustained at Washington.

SAN FRANCISCO, Aug. 1.—[By the Associated Press.] The Secretary of the Treasury has written to the Quarantine Officer, McAllister, of this port in the case of Minnie Schultz, the leper child, brought here from Honolulu on the steamer Australia, and to whom McAllister refused landing in his official capacity as United States Commissioner of Immigration. State Commissioner of Immigration Thornley contested with him the point as to who was the proper guardian of the child, and was sustained by the United States Courts. Thornley secured the child's release on a writ of habeas corpus returnable before Judge Beatty of the Superior Court, and when the latter decided in favor of McAllister's claim the child had disappeared. The Secretary of the Treasury condemns the action of the United States Courts, and blames the officers of the vessel for allowing the child to escape. For the better enforcement of the act in future, the Secretary has prescribed that a bond must be given by the owners of vessels transporting passengers from foreign ports to San Francisco, to be approved by the Collector of the Port and forwarded to Washington. If any transportation companies refuse to give the bond, in no case are immigrants to be allowed to land until an examination is made and the immigrants found to be fit persons to land.

CELESTIAL JUSTICE.

How Chinamen Punished a Pilfering Countryman.

MARYSVILLE, Aug. 1.—[By the Associated Press.] About a year ago some Chinamen were robbed, the money being taken from their house at a garden on the Yuba River, five miles east of this city. They were much excited, and swore they would kill any one if caught in the act. One day last week they detected a Chinaman who had been employed on the farm in the act of taking \$300 from the cabin. The alarm was given, and in a few minutes the pilferer was stripped, his hands tied, a rope passed under both arms, and he was hoisted on a beam. He dangled there for three days, when two young men named Norton found and were going to cut him down, but the Chinamen threatened them and they retired. On the main road they met Tom Conlin, the Swartsville Constable, who went to the place and told the Chinamen that he wanted the Chinaman cut down, and that he would take him to town. He was cut down, and said that he had not been to eat or drink for three days. The Chinamen said they would take him to town, but did not do so, and when last seen he was being led down the levee by two Chinamen, and foul play is suspected. The Sheriff will investigate.

The cost of service was \$1,302 for salaries, \$1,763 for mileage and \$550 for incidentals.

Fire in a Mine.

HELENA (Mont.), Aug. 1.—A telegraphic special to the Independent from Phillipsburg says: A fire at the Bimetalline mine started about 4 o'clock, burned the shaft-house, hoisting machinery and upper part of the shaft, together with a lot of wood, entailing a loss of several thousand dollars. One hundred men were in the lower level, and followed to the air shaft, formerly the old working shaft, and through that avenue to the surface. All came out safe. The Bimetalline belongs to the Granite Mountain stockholders and is owned principally by St. Louis parties. It is operated separately from the Granite Mountain.

Creditors Seeking Protection.

SAN FRANCISCO, Aug. 1.—At a meeting of the creditors of J. M. Spofford & Co., suspended fruit canners, it was resolved to ask the company to give the California creditors bills of release, in consideration of receiving a release from all claims. This action was taken in view of the fact that if the assignment of M. T. Brewer and J. H. Spofford is perfected, eastern firms with whom Spofford & Co. have contracted to supply 30,000 cases of canned goods, will put in large claims for damages, and among the heaviest creditors are Goldstone & Calvin of San Buenaventura.

Murdered the Prospector.

TUCSON (Ariz.), Aug. 1.—At the preliminary examination this morning of the four Indians charged with the murder of D. D. Ford, the prospector, they confessed the killing of Ford. They saw him coming along the road with a burro loaded with provisions, and thinking that he had money concluded to kill him. They shot him through and through, and finding no money, unloaded the burro and carried the body and all effects to an arroyo, and buried all in a hole.

SAN FRANCISCO, Aug. 1.—T. J. Lamar, a stockholder of the Phil Sheridan Mining Company, on behalf of himself and other stockholders, has brought suit in the

Superior Court against John W. Pearson for an accounting as treasurer of the company. He claims that Pearson is indebted to the company in the sum of \$7,073,271 from sale of stock, assessments collected and value of 70,000 shares of stock of the corporation, wrongfully appropriated by Pearson.

Victimized Many Persons.

SAN FRANCISCO, Aug. 1.—Search is being made in this part of the State for one Capt. A. J. May, a retired pilot, who, it is alleged, has swindled over a hundred persons since last September out of sums ranging from \$15 to \$75, which he procured under the pretense of acting as proxy for them in the matter of redeeming Government lands in Santa Barbara and San Luis Obispo counties of which he claimed to have knowledge.

The Scott Land Sale.

SAN FRANCISCO, Aug. 1.—[Special.] Third day of the sale of the remainder of the Scott estate lands here has just closed with a total footing of \$430,000. There is about one hundred thousand dollars worth of land yet to sell, which will be closed in two more days. Farmers are large and eager buyers. The deepest interest is manifested and there is a large attendance.

San Diego to Buy Waterworks.

A "BIRD."

And His Birdie, and How They Took Possession.

One of the cheekiest dead beats in the city, after pursuing his peculiar calling for some months with considerable success, came to grief last night. Some time ago a rather nice looking individual, who gave the name of J. K. Raymer, accompanied by his wife, who, he said, was an invalid, took a room at 17 Buena Vista street, at a weekly rental of \$5. Raymer said that he was a practicing lawyer, and gave it out that he had a rich father back in the States. For about three weeks he paid his rent, after which time he stopped, and from that date up to last night, when he was marred up to the County Jail, the landlady was unable to get a cent out of him. He was a young man of many resources, and always had a plausible story to tell when asked to liquidate. To make matters worse, he began to play the confidence game on inmates in the house, and in one or two instances was guilty of conduct that should have landed him in jail, but he always, by some hook or crook, managed to keep out of the clutches of the law. He was repeatedly asked to vacate the room, but would not do so, and Tuesday, during the absence of himself and wife from the room, the landlady locked the door and took possession. Raymer came home in the afternoon, and when he found what had been done, flew into a towering rage, and threatened to wipe the earth with the landlady's brother-in-law, who was at the house, saying that he intended to have his baggage and would occupy the room, whether or no. He finally broke into the room, and with possession with his wife. The landlady was greatly alarmed at his violent conduct, and Officer Church, who is on that beat, stayed around to see that he did no harm. Yesterday the brother-in-law, a man named Johnson, swore out a warrant against Raymer for assault. Last night about 11 o'clock a TIMES reporter went up to the house, which he found in a regular state of siege. The landlady and her brother-in-law, together with Constable Smith, were on the sidewalk, while Raymer held the fort on the inside. After some parleying, Smith went in and secured his man and marched him off to the County Jail, and the family reentered the house. The case will come before Justice Taney this morning. It was learned last night that Raymond had been living by his wits for some time, borrowing small sums when he could, and that several prominent citizens had been worked by him. His wife is a really healthy-looking invalid, and it is claimed that it is her part of the "fake" to play the invalid for the purpose of creating sympathy.

BIER GOULD.

Reasons Why He and Brer Yarnell Don't Hitch.

There is lots of "clerical" in the Prohibition party at the present time. The brothers have discovered a "smoothy" in their ranks, and they are doing all in their power to take the leadership from his hands.

One of the big men of the party, namely, Jesse Yarnell, who was mentioned by "Boss" Gould in terms that cannot be considered flattering, in an interview which appeared in yesterday's TIMES, was seen in his office by a reporter yesterday afternoon. Mr. Yarnell said: "Gould has gathered a little clique about him, and he is using them to push himself forward. He will ruin our party if he is allowed to go on, for he is working for himself and not for the good of the party. We do not propose to stand it. As to the difficulty he had with the W.C.T.U., I simply have this to say: Some time ago a subscription list was placed in Gould's hands. I for one had put my name down for \$100, a portion of which I paid. Well, when the ladies came around to collect I noticed that they had a copy of the original list, and that there was nothing to show that I had paid a cent, while I knew that the original did make such a showing. I told them to go back to Gould and get the original list. But the ladies had a great deal of trouble, as they found a number in the same boat I was in. I know that the ladies have but little use for Mr. Gould. He is not fit to be a leader, and as long as he is at the head of the party a number of us will not work with him."

Amende Honorable from the Nadeau.

In the report of the proceedings of the General Executive Committee, L.O.O.F., published in yesterday morning's TIMES, reference was made to the report of the Committee on Hotels, referring to the Nadeau Hotel, stating that the proprietors had refused to assign rooms in advance to guests arriving in September, and in consequence the committee would not act in its guests to that hotel. The committee desire to state that they have reconsidered their action, it appearing that the clerk of the hotel was not authorized to make such statement, and the proprietors, Messrs. Chase & Moore, assure the committee that they will do all in their power to make the hotel a success, and that their hotel will now reserve any rooms required, and at the usual rates.

THE MAHDI AGAIN.

He Summons Emin Bey to Surrender.

The Latter Marches Out to Battle with the Prophet.

Stanley Said to Be Deserted by His Men and Helpless.

Other Foreign Tidings—Blaine Sails for New York—The Melbourne Exposition Opened with Much Pomp—Peace Between the Kaiser and Bismarck.

By Telegram to The Times.

LONDON, Aug. 1.—[By Cable and Associated Press.] A dispatch from Zanzibar says: Two native messengers captured from the Mahdi's outposts by tribes of the Uganda district, bordering on Albert Nyanza, and who escaped from their captors about the beginning of April, have just arrived here. They report that Emin Bey was in a situation of great difficulty. Provisions were scarce and difficult to procure, and his troops were discouraged.

THE MAHDI'S SUMMONS.

On April 4th Emin received a summons from the Mahdi, dated at Khartoum, to surrender and to disband his troops. The Mahdi threatened to attack if Emin refused. Emin also received a letter said to be from Lupton Bey urging him to surrender as the only means to avert a massacre of Europeans at Khartoum and Wad-el-Sudd. Emin's outposts confirmed the report of the Mahdi's advance, stating that scouts on armed vessels had appeared at the confluence of the Nile and at Sobat.

Emin considers the Lupton letter a forgery, but declined to advance himself with the bulk of his troops by the left bank of the Nile and endeavor to surprise the Mahdi, compensating for the lack of provisions by the rapidity of his attack.

STANLEY'S FATE UNKNOWN.

He was much harassed by the non-arrival of Stanley. Vague reports were filtered from tribe to tribe. It was reported that Stanley was denuded of men and supplies and hemmed in between the Maboda country and Albert Nyanza. Other reports were that Stanley, after several conflicts with the Maboda and Mini tribes, had been compelled to direct his course in an unknown direction.

TIPOO TIB DOING NOTHING.

Deserters from Tipoo Tib's caravan testify to his willingness to assist Maj. Barttelot, but say that owing to the rumors regarding Stanley's fate, he had the greatest reluctance to advance himself to penetrate into the interior.

There has been fighting between the Kings of Uganda and Kabrega, southeast of Lake Nyanza, which the King of Uganda was victorious.

FROM THE ORIENT.

Volcanic Eruption in Japan—Cholera in China.

SAN FRANCISCO, Aug. 1.—[By the Associated Press.] Advice from Hong Kong and Yokohama are received by the steamer Arabic which arrived today.

Japan papers state that a telegram from Wakamatsu, Japan, dated July 15th, says that the volcano of Mt. Iwabashi suddenly burst into activity, and in a short time 56 houses in Iwasemara were destroyed. A telegram received on the 16th says that the eruption still continued with great destruction and loss of life. About 400 persons and 80 houses in a village called Hiyogawa buried under sand and ashes thrown out of the volcano. Among these buried were some fifteen visitors at the hot springs in the neighborhood.

CHOLERA TRANQUIL.

CHOLERA.

The cholera in Amoy seems for the time to be held in check, but at Chang How it is reported that 3000 deaths have occurred in the past 60 days.

MELBOURNE'S EXPOSITION.

Opened by Gov. Loch with Imposing Ceremonies.

MELBOURNE, Aug. 1.—[By Cable and Associated Press.] Gov. Loch opened the Centenary Exhibition today amid great pomp and display. Salutes were fired from batteries and a procession marched through the streets headed by the naval brigade, rifles, artillery and militia, followed by the fire brigades and trade associations. Seven thousand people assembled within the exhibition building to witness the ceremonies.

The Avenue of Nations, 1350 yards long, was lined with troops and seamen from the imperial fleet, guarding the grand hall.

The Governor entered the north door of the hall and was greeted by the President and executive committee of the exhibition, and was conducted to a dais before which members of the Australian Ministry, Supreme Court and officers of the Government were grouped. The national hymn was declared the exhibition opened. The national hymn was sung by a chorus of 800 voices accompanied by an orchestra of 100 players. This was followed by the national hymns of America, France, Germany and Austria.

Mr. Shorb Not a Rose.

Referring to a scurrilous article which appeared in the Tribune the other day, stigmatizing J. de Barth Shorb as "a rural booby," endeavoring to knock out the Alhambra incorporation project, a friend of Mr. Shorb writes to THE TIMES, indignantly denying the charge. Mr. Shorb has nothing to do with the incorporation or non-incorporation of Alhambra, but has been the most liberal-spirited patron that settlement ever had. As to the incorporation which was voted on the other day, it rests entirely with the laws governing such matters whether the project is carried out or not. A population of 500 or more people to make a town, and if Alhambra falls short of the required number she will have to curb her ambition yet a little while.

ICE! ICE!

Ice No Longer a Luxury in Los Angeles. Thanks to an Enterprising Company.

The inhabitants of this progressive and rapidly growing city have another proof of the faith eastern capital has in its future. There has just been completed in this city the largest and best ice manufactory and cold-storage buildings in the world, by the Los Angeles Cold Storage and Hendrick Ice companies. The ice-making capacity is 50 tons daily. Our competitors claim that cheapening the price of ice will not increase its consumption. We believe otherwise. We believe that ice is wanted for the preservation, in private houses, of meats, milk, butter, vegetables, and for ice water, ice tea, ice cream and other purposes, and that the exorbitant prices only have heretofore prevented its general use. We are confident of your patronage, as we are the direct and only cause of the reduction in price.

In connection with our ice and cold-storage buildings we have erected large smoke-houses, and offer you, through the grocers and butchers, the only meats smoked here. They are much better than other meats, which all have to be brought across the desert. Ask for our "Lily" hams and bacon. No skippers in them, no mould, full weight. Orders for ice may be sent to us through the mail, or telephone 228, or orders left at Metropolitan Office, Store, corner First and Main streets; Oil Burning and Supply Company, 518 North Main street, will receive prompt attention. C. E. Tibbets, Superintendent Ice Department, M. Dodsworth, General Manager. 9-1

PASADENA.

He "Fit" with a Badger—Narrow Escape—The "I'm Fined"

PASADENA, July 31.—(Special Correspondence of THE TIMES.) Yesterday afternoon Mr. James Wood, while walking or lying in for some poor bird or "chippy" to put in an appearance on Lake street, was agreeably surprised by the approach of a badger. Mr. Wood, as luck would have it, was loaded for bear when the enemy appeared. He fired at the animal once and wounded it, whereupon the beast started to make good his escape, when he again fired and wounded it. By this time, having become infuriated by pain, he attacked the would-be sportsman, who took to his heels to find safer quarters, but the pursuit becoming a little too warm, he was obliged to defend himself, and after a smart struggle Mr. Wood came off conqueror. He now swears by "the great horn spoon of the West" that the next time he encounters a badger or any other animal of that species, the battle-ground must contain at least one good-sized tree.

House-moving in Pasadena has been brought down to a fine art, so that it is no uncommon thing to see four, six or eight horses attached to a house and pulling it through the streets. The old fashion, in which the captain is brought into play, seems to be a thing of the past, unless buildings are of tremendous weight, when the old way seems the best way.

A few days ago a common, everyday notice appeared in THE TIMES under the head of "Pasadena News," merely mentioning the fact of our own accord, that a certain lady had received a reply to her letter of congratulation written to Benjamin Harrison. This, for some unaccountable reason, was not received in very good spirit by some one who signed himself "Carlo P. Drexler, Painter," under the article headed "Harrison's Courtesy," in Pasadena Star, July 30th, in which he says: "A relative of Harrison's is boasting of getting a letter," etc. "Carlo" evidently wrote that article prompted by the spirit of meanness or jealousy. It is not so much what is said or written, but the spirit in which it is said. "Carlo P. Drexler, Painter," may consider it a crime to be related to "our next President," but others may think differently. The lady in question is a lady in every sense of the term—not seeking notoriety, but attending to her home duties. I hope "Carlo P. Drexler, Painter," will now be satisfied with this notice of his weakness, unenviable as it is.

YESTERDAY'S BUDGET.

PASADENA, Aug. 1.—(Special Correspondence of THE TIMES.) The man who asks, "Is it hot enough for you today?" is abroad in the land again, but the orders from headquarters are to shoot him on sight.

Mr. Joseph Willet, who died last Sunday, was buried this afternoon from the Catholic Church.

The case of Mr. Wickersham, who was arrested for an assault and battery, indicted on J. C. Stewart, committed on Monday last, was dismissed this morning in Justice Terry's court, because of the refusal of the injured man to prosecute. It was learned outside of court that Wickersham had effected a private settlement with Stewart by paying the amount claimed.

The Pasadena Mining and Milling Company was organized this morning. It has a capital of \$20,000.

Mrs. Webster Workins had quite a narrow escape on Grand avenue yesterday afternoon. She was thrown from her carriage by the fractious horses, and though somewhat stunned, was not severely injured. The vehicle was quite thoroughly wrecked.

Pasadena is to have two wholesale liquor houses in a short time. "Can such things be and overcome us like a summer's cloud without our special wonder?"

It is said that Mr. J. E. Lindsey, city editor of the Pasadena Union, has concluded to leave the editorial field and enter the practice of law.

What Am I To Do.

The symptoms of biliousness are unappetizing but too well known. They differ in different individuals to some extent. A bilious man is seldom a breakfast eater. Too frequently, alas, he has an excellent appetite for liquids, but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred, it is rough, at all events. The digestive system is wholly out of order and indigestion or constipation may be a symptom or the two may alternate. There are often hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity of the stomach. To correct all this it is not effect a cure try Green's August Flower, it costs but a trifle and thousands attest its efficacy.

The European Medical Staff and Special Surgeons and Physicians of the Liebig World Dispensary and International Surgical Institute, will be in Los Angeles from August 1st to August 7th, 1888, at 21 South Main street, rooms 1 and 2.

The surgical branch gives special attention to deformities of every kind, and all displacements requiring appliances for Curvature of the Spine, Hip Joint, Distorted Limbs or Arms—successfully treated by our new Voltaic and Magnetic appliances.

The medical branch devotes special attention to all Chronic, complicated, Private and Wasting diseases resulting from badly treated cases of an acute or special nature, or from indiscretions of youth bringing on Spermatorrhea, Seminal Weakness, and an unnatural drain from the body, which undermines the constitution; also Debility, Decay, Loss of Vitality or Manhood, which results from excess of manly life.

The reason so many are not cured of the above complaints is owing to a complete lack of rest, restlessness, which our treatment alone can cure.

Varicose, wormy veins in Scrotum. Strictly blood and skin impurities, speedily cured; acute private troubles safely, confidentially and quickly cured. Catarrh of the mucous membrane of the head or bladder successfully treated; also throat and lung diseases. Female complaints and all complicated, delicate diseases of women carefully treated by our special method, whereby none of the usual physical examinations are required. Displacements of the Uterus and all special complaints peculiar to females successfully treated. Separate office for ladies, who should call between the hours of 3 and 5 o'clock to avoid the crowd. Office hours, 10 to 3 daily; Sundays, 10 to 12 only. Consultation free.

All languages spoken and written. Write in your own language.
